

Spring has sprung, the time has come, for the greening of the trees,  
A time of change, renewal and growth for my allergies.  
Like everything else in this great world, Spring has its pluses and minuses.  
But its features are quite singular when it comes to my poor sinuses.  
A beautiful time of blossoms and buds, new branches and blue skies.  
But I can't enjoy them one little bit through my oozing, watery eyes.  
A neti pot, a nasal rinse, I'll try them, yes I will,  
I'll even take a 24-hour non-drowsy worthless pill.  
So listen cheerleaders of flowers and sun, to you I must disclose,  
Spring is not great for all of us, especially my nose.

## Old Goats

A group of Canadians was traveling by tour bus through Holland.

As they stopped at a cheese farm, a young guide led them through a process of cheese making, explaining that goat's milk was used.

She showed the group a lovely hillside where many goats were grazing. These, she explained, were the older goats put out to pasture when they no longer produced.

She then asked, "What do you do in Canada with your old goats that aren't producing?"

A spry old gentleman answered, "They send us on bus tours."
